A friendly reminder:

Report Your Recreational Landings

Anglers must report all landings of swordfish, billfish, and bluefin tuna (including bluefin tuna dead discards).*

Report online

hmspermits.noaa.gov/catchReports

Report by phone

Swordfish and Billfish	(800) 894 5528
Bluefin tuna	(888) 872 8862

The permitted owner of the boat, including Charter/Headboats, or a designee, is responsible for reporting **within 24 hours**.

* Billfish and Swordfish Tournaments

All Atlantic HMS tournaments must register with NOAA Fisheries. If a billfish or swordfish is caught and entered in a registered tournament, the tournament operator is required to report the fish to NOAA Fisheries, and anglers need not report that fish through this system. Check if a tournament is registered at <https://go.usa.gov/xQ5pK>

* North Carolina and Maryland

Recreational landings of billfish, swordfish, bluefin tuna, and some sharks must be reported at state-operated reporting stations and not through this system.
